

Why THA Endorses INSURICA

As a health care professional, taking care of patients is your primary goal. However, today's highly litigious environment all too often shifts health care professionals' attention away from patient care.

INSURICA is one of the largest insurance brokers in the United States and remains privately owned to serve clients over stockholders. They are comprised of insurance and risk experts who specialize in core industries from hospitality to health care. When you work with INSURICA, you're not just working with insurance experts – you're working with experts within your industry.

At INSURICA, Specializing in You isn't just a motto on a piece of paper – it's the fundamental nature of how they do business. They go beyond selling policies to better understand your hospital or health care system's business structure and develop a customized risk management plan.

In addition to INSURICA's extensive network of experts, they are able to leverage the expertise of other insurance leaders throughout the U.S. and the world. Partner agencies are selected on the basis of their premier market position, breadth of services integrity and commitment to serve clients.

Health care specific coverages and services provided by INSURICA include:

- General liability
- Property
- Workers' compensation
- Cyber liability
- Professional liability
- Directors and officers liability
- Provider stop loss insurance
- Loss control services
